Have you applied for or received support from Vancity in the past?		Yes	No
If <b>Yes</b> , provide details:			

## Section 5 – Guiding Principles

**This grant program is managed by your local Vancity Branch and is designed to build neighborhood partnerships by investing in the local community.**

Vancity's goal is to put people first so we can help create a clean and fair world that leaves no one behind. We focus our work in financial and social inclusion, with the goal of helping our members and communities with initiatives that will:

- **Achieve increased financial resilience and financial inclusion**  
e.g. Financial education, access to affordable banking services, fraud protection, and building employment or entrepreneurial skills
- **Help individuals, local businesses, and organizations become climate ready and move towards a low-carbon economy**  
e.g. Upskilling workforces on green initiatives or creating good green stable jobs
- **Raise awareness towards Reconciliation, racial equity and social justice**

*Priority is given to initiatives that are led by or will partner with Indigenous, Black, People of Colour, Newcomers, Women, Persons with Disabilities or other underserved communities in the planning and delivery of the initiative.*

Describe what your project is about *100 words or less*

What will the Vancity funds be used for?

Are there other opportunities for Vancity and your organization to work together in a meaningful way that is aligned to the business and values of the credit union?

**Section 6 – Additional Details**

Feel free to add any other information to support your project or your organization.

Additional Comments

We receive a large volume of requests over the course of the year and we only have a finite amount of funding to contribute to Community Branch Partnerships. Please understand that only applications that are strongly aligned to our criteria will be given consideration. Thank you for your interest in Vancity.
